

WELCOME to the King's campus!

This guide will help you find your way around our amazing new campus.

Our impressive site hosts a range of innovative indoor and outdoor facilities to enhance learning, support our young people's personal development and develop their potential.

We have a dedicated Infant & Junior Division toward the West end of the building, a Sixth Form Centre right at the heart of the school, and a Senior Division that spans the building.

State-of-the-art facilities include generous laboratories, ICT suites, a central library, dedicated faculties for languages, humanities, creative and performing arts. We have multiple performance spaces to stage music and drama

productions in varied formats, giving us the flexibility and opportunity to enhance pupils' confidence and self-assurance.

Designed as an eco-friendly campus, we have developed a range of outdoor learning classrooms and resources, including a wetland habitat zone, an orchard with its own bee hives, a woodland and an area for learning bushcraft skills.

King's has always had a prestigious sporting reputation, and our new campus provides an environment to enhance our pupils' participation and achievement even further.

The Sports Centre has a six-lane 25m swimming pool, indoor cricket area, dance / martial arts studio, fitness suite and an impressive sports hall for ball sports and trampolining.

There are expansive areas for outdoor sports such as the First XI Wilson Cricket Pitch, eight rugby pitches, two all-weather Astroturf hockey pitches, six tennis and netball courts, a 400-metre athletics track and rounders pitch.

I hope you enjoy all the new and exciting features King's has to offer!
